

## COMPANY OVERVIEW

Instacube is an emerging provider of Compact Laminate Products to the Australian commercial building industry. With a strong track record in supplied flat pack solutions, Instacube has now expanded to offer supply and installation of toilet partition packages in the Victorian commercial space. We specialise in office, recreation, education and industrial settings. **Our mission** is to offer clients a single point of contact for all project works, including detailed shop drawings, and provide durable products at competitive prices without brand name mark-ups. As an Australian-owned manufacturer of compact laminates, we maintain greater control over our products and supply directly to consumers. We offer comprehensive supply and installation services for washroom partitioning throughout Victoria. **Our Vision:** Our long-term goal is to establish a consistent pool of clients to whom we offer a high level of service and reliability. We are continually innovating and expanding our product offerings to meet the evolving needs of the market.

## HOW ARE WE DIFFERENT:

Your entire project will have a dedicated contact for all questions, available to you on 0414 268 108. Matthew will assist you with any queries you have. No running around between departments, no one handballing issues to other people. One contact, one person, responsible for your project.

## PRODUCTION CAPACITY

Our production facilities are based in Melbourne's west, equipped with state-of-the-art technology to ensure flexibility and efficiency in meeting project requirements. Our lead times are adaptable to fit your project schedule. We use Compax Laminates, which boasts a full range of colours tailored to the Australian market, including identical matches for many high-profile colours.

## WORKFORCE

Instacube is managed by Matthew Ponza, who brings five years of experience in toilet partitions within the Victorian market. Our team is skilled in delivering high-quality products and services, ensuring client satisfaction at every stage of the project.

## QUALITY ASSURANCE

Compax Laminates is committed to maintaining the highest standards of quality control. Our processes adhere to stringent industry standards, ensuring that our products are durable and reliable. We hold various certifications that attest to our commitment to quality and environmental responsibility.

## LOGISTICS

We have a robust distribution network that ensures timely delivery of our products throughout Victoria. Our logistics partners are reliable and efficient, enabling us to meet the demands of our clients with precision and professionalism. Our lead time from approved drawings to installation on site is 3-4 weeks.

## CUSTOMER SERVICE:

Our customer service team is dedicated to providing exceptional support. For any technical, compliance, or quoting requirements, clients can reach out to Matthew Ponza at [sales@instacube.com.au](mailto:sales@instacube.com.au) or on 0414 268 108. We pride ourselves on our ability to provide tailored solutions and responsive service.

## SUSTAINABILITY:

Compax Laminates leads the competition in environmental certification and sustainability practices. We are the only manufacturer in Australia producing compact laminates that can be recycled, thereby preventing significant waste from ending up in landfills each quarter. Our commitment to sustainability is a core aspect of our business operations.

## FUTURE PLANS:

Our long-term goal is to establish a consistent pool of clients to whom we offer a high level of service and reliability. We are continually innovating and expanding our product offerings to meet the evolving needs of the market. For any inquiries or further information, please do not hesitate to contact us. We look forward to partnering with you to deliver exceptional washroom partition solutions for your projects.

## DISCOVER INSTACUBE'S FLOOR-MOUNT OVERHEAD BRACED PARTITION SYSTEM (IC1)–

Where durability meets sophistication. Designed for high-traffic environments, this system combines the strength of floor-mounting with the stability of an overhead brace to deliver unparalleled performance. Ideal for educational, government, healthcare, and industrial settings, our system ensures robust, long-lasting partitions that stand up to daily wear and tear. The floor-mounted design provides steadfast support, while the overhead brace enhances structural integrity, preventing wobbling and ensuring a sleek, modern appearance. Our panels are crafted from Compax 13mm solid compact laminate, offering superior durability and resistance to bacteria, water, graffiti, and impact.

## PRESENTING THE INSTACUBE FULL HEIGHT PARTITION SYSTEM (IC7)–

the ultimate solution for maximum privacy and modern elegance. Designed for settings that demand enhanced discretion, such as all-gender washrooms, this system features floor-to-ceiling panels that provide a seamless barrier and exceptional privacy. The Instacube Full Height Partition System stands out with its slim-profile overhead rail, offering additional structural support while maintaining a sleek, streamlined appearance. Constructed from 13mm solid compact laminate, our partitions are durable, resistant to bacteria, water, graffiti, and impact, and are fire retardant for added safety. Ideal for commercial, government, healthcare, and industrial environments, this system ensures a visually pleasing design with clean lines and a refined finish. The full-height doors feature a unique privacy edge detail and comply with the latest building codes, combining functionality with high-end aesthetics.

## INTRODUCING THE INSTACUBE FLOOR -MOUNTED FREESTANDING SYSTEM (IC3) –

the epitome of understated elegance and high-performance functionality. Designed with a sleek, minimalist approach, this system features clean lines and a refined profile that fits seamlessly into any room. It's the perfect choice for creating a sophisticated and polished look in prestigious environments. The floor-mounted design ensures robust support, while the discreet, secret-fixed installation enhances the room's aesthetic by creating a unified structural element. Ideal for low-traffic wet areas, this system combines durability with a high-end finish that exudes class.

## PRESENTING THE INSTACUBE CHILDCARE CUBICLE SYSTEM (IC6)–

the perfect solution for creating safe and functional spaces in kindergartens, childcare centers, and early learning environments. Designed specifically for young children, this system meets the unique needs of little users while ensuring ease of supervision for caregivers. Our junior cubicle partitioning system features 13mm solid compact laminate panels that are durable, waterproof, and resistant to bacteria, graffiti, and impact. Safety is a top priority: all corners are rounded, and aluminum wall channels and corner posts include safety capping to eliminate any rough edges.

## WELCOME TO THE INSTACUBE FULL HEIGHT FRONTAL SYSTEM (IC5) –

A masterclass in durability and design sophistication. Featuring robust floor-to-ceiling frontals, this system offers both exceptional structural stability and an eye-catching visual appeal. Perfect for high-ceiling environments like universities and commercial spaces, it provides a premium feel for settings that demand both performance and style. Designed for high-traffic areas, the Instacube system excels in both functionality and aesthetics. Its sleek, minimalist design ensures a quality finish while minimizing maintenance, making it ideal for upscale corporate facilities and premium bathrooms.

## EXPLORE INSTACUBE'S PRIVACY SCREENS (ICP)–

the ideal solution for maintaining privacy and enhancing the look of any commercial washroom. Available in the same extensive range of finishes as our cubicle systems, our urinal screens ensure a cohesive and polished aesthetic across your restroom space. Crafted from durable 13mm solid compact laminate, our screens offer excellent resistance to bacteria, water, and impact. Choose from various mounting options to accommodate different size configurations and privacy needs.
